2pm-3pm **Workplace Organiser 101 Training Taster Session (Industrial Workers of the World - IWW)**

In this interactive workshop, participants have the chance to learn some of the up-to-date techniques which the IWW uses for on-the-job action. Using material from the full Organiser Training 101 package, Sheffield IWW organisers will guide participants through workplace-interaction scenarios which will help them take control back from the boss!

3pm-4pm **Swimming against the stream, the challenge for revolutionaries (Communist Workers' Organisation)**

Capitalism faces its longest ever unresolved crisis. In Britain we find ourselves between the illusion in state capitalism spear-headed by the Corbynistas or a rejection of the revolutionary potential of the working class (communisateurs, Paul Mason, etc). A discussion for those who want proletarian revolution, not capitalism with a left face.

4pm-5pm **Anarchy: rules! (Ruth Kinna & Thomas Swann)**

How do/should anarchists agree principles of association and rules of co-operation? Are these principles and rules constitutional statements? Can safe spaces policies, social spaces agreements and rules governing disagreements be agreed by consensus, or do principles like anarchy or non-domination matter too? Come and discuss this contentious topic.

CHILDCARE: If you need childcare between 11am-5pm to enable you to go to a workshop please ask at reception.
