

Cambridge Indymedia presents:

**7.30pm Sunday 9 May**

**film @ The Locomotive, 44 Mill Road**

In July 2001 leaders from the world's eight most powerful nations met in the Italian port of Genoa. Despite unprecedented security, over 300,000 protesters voiced their anger at the increasingly dictatorial and profit-hungry regimes spearheaded by the G8. This film presents a radical narrative of the build-up, the events themselves and the long-term struggle for justice.
