**Protest
March & Rally, Glasgow
Saturday 1st October
meet 11am George Sq.**

On September 13th, the Vucaj family, Glasgow residents for the last five years, were awoken at dawn as a 16-strong gang of body-armoured police and immigration enforcers smashed down their door, dragging the family off to imprisonment. They have committed no crime. Their friends, neighbours and school friends are demanding their release and their return home.

This is not an isolated incident. This barbaric treatment happens daily in Scotland. And the people of Scotland have had enough. Come and add your voice to the public outcry called for by the Children's Commissioner. For an end to deportations, for an end to detention, for the right to safety and freedom for all.
