

ID CARDS

WHAT HAVE YOU GOT TO LOSE?

Well, here's just a few things. . .

- Your right to privacy
 - Your personal details will be available to a wide range of private companies and public bodies
 - Britain will become a 'surveillance society' as facial recognition technology is used with CCTV to identify people on the streets.
- All your personal details are on a computer so vulnerable to hackers.
- Billions of pounds that could be better spent on health care, pensions etc.
- Thousands of pounds in fines if you fail to keep the data in the system correct.

**DON'T TRUST THE GOVERNMENT
WITH YOUR PERSONAL DATA!**

ID CARDS

HOW TO RESIST!

- You are not alone.
 - Thousands of people have already pledged to go to jail before they will register for an ID card
 - Already 43% of the population thinks ID cards are a bad idea.
- Get info from the internet, and get involved with your local group
- £1 million fund is being set up to pay the fines of those who will refuse the cards.
- We resisted the poll-tax and won. ID cards are Blair's poll tax!

WITHOUT OUR CO-OPERATION
ID CARDS WON'T WORK!

ID CARDS

WON'T STOP TERRORISTS!

Instead the government might try a few of these:

- Not bombing other countries
- Not stealing their resources
- Not supporting vicious dictators
- Not destroying their environments
- Not enforcing privatisation
- Not subsidising torture equipment

**DON'T GIVE UP YOUR LIBERTIES
FOR GOVERNMENT LIES!**
