

Cambridge Indymedia presents

**7.30pm Sunday 21 January**

## **Nuclear films @ The Bun Shop, 1 King Street**

## **Welcome Into a Radiant Future**

From the uranium mines in Niger to the nuclear power plants in France and finally to the radioactive waste storage, this is a critical documentary about the whole nuclear chain. It covers the relationship between civil and military use of uranium and plutonium, working conditions in the nuclear plants and the dangers involved with the transport and retreatment of fuel and waste, as well as the alternatives to both nuclear and fossil fuel energy. *(47 mins)*

### **The Unknown Terror of DU**

A short film about the radioactive contamination from the widespread use of depleted uranium weapons, particularly in the recent Iraq war. *(22 mins)*

**We'll also have a speaker from Faslane 365 to talk about the ongoing campaign against Britain's so-called nuclear deterrent.**
