The government wants to make students **PAY** for English (ESOL) classes.

We believe that English classes should be FREE for people who need them.

Learning English is important:

- So people can speak to each other in English
- To help people get better jobs
- So parents can help children with their education
- To get UK citizenship
- To be understood at the doctor and in an emergency
- To understand life in the UK

What you can do:

- Sign the petition
- Write to your MP
- Write letters to East End Life and East London Advertiser
- Come to the Public Meeting
- Come to the demonstration
