

Cambridge Indymedia presents:

7:30 pm Sunday 15 April

film @ the Bun Shop, King Street

The pick of the SchMOVIES produced in 2006, covering events across the UK such as the Smash EDO campaign, protest camps at Titnore Woods and Shepton Mallet, the Camp For Climate Action, anti-war demos at Parliament Square in the face of SOPCA laws, community resistance to the M74 motorway in Glasgow, and more... One theme that runs through these films is the blatant use of a 'political police force' to protect corporations and war criminals rather than uphold the law. But despite this, people are prepared to take direct action and not let a police state goose step in. Remember...

*People should not be afraid of their governments.
Governments should be afraid of their people.*
