All films will be shown at the University of Sheffield Medical School, Lecture Theatre 1, Royal Hallamshire Hospital, Glossop Road, Sheffield S10 2JF

*The event is free but a donation of £1 is suggested

The End of the Line - Wednesday 13 October 6:30 pm

The End of the Line is the first major feature documentary film revealing the impact of overfishing on our oceans. Filmed across the world – from the Straits of Gibraltar to the coasts of Senegal and Alaska to the Tokyo fish market – featuring top scientists, indigenous fishermen and fisheries enforcement officials, The End of the Line is a wake-up call to the world.

Who Killed the Electric Car? - Wednesday 20 October 6:30 pm

It was among the fastest, most efficient production cars ever built. It ran on electricity, produced no emissions and catapulted American technology to the forefront of the automotive industry. The lucky few who drove it never wanted to give it up. So why did General Motors crush its fleet of EV-1 electric vehicles in the Arizona desert?

Vanishing of the Bees - Wednesday 27 October 6:30 pm

Honeybees have been mysteriously disappearing across the planet, literally vanishing from their hives. In the UK, around one fifth of honeybee hives were lost in the winter 2008/09. Bees pollinate a third of the food we eat, and this contributes £200 million a year to the UK economy. Vanishing of the Bees, is an eye-opening account of the shocking truth behind the declining bee population.

End of Suburbia - Wednesday 3 November 6:30 pm

The End of Suburbia explores the American Way of Life and its prospects as the planet approaches a critical era, as global demand for fossil fuels begins to outstrip supply. World Oil Peak and the inevitable decline of fossil fuels are upon us now, some scientists and policy makers argue in this documentary.
