

WEDNESDAY - OCT 13

Police beatings, frame ups and shootings are daily occurrences in the Black community. But the police are not the only criminals in the justice system.

The DA defends the criminal activity of the police in court while they work overtime to prosecute African people. Judges take money under the table from private prisons in exchange for more convictions. Public defenders and many paid lawyers do nothing to protect their clients' interests. Together

these forces maintain a prison industry that generates trillions of dollars for the U.S. economy at the expense of African people. Only a court system controlled by the African working class will bring forth justice for Africans!

We Are Marching to Jail the Crooked Cops, Judges *and* Lawyers!

MARCH DEMANDS:

1. Free Diop Olugbala, all charges dropped no sentence! (read about his story on the other side of this flier)
2. Reparations to the African community - \$1billion for economic development, not police, prisons and courts
3. Independent investigation of all cases of Africans who have been brutalized, framed up and killed by police, judges and attorneys.
4. Jail the police, judges and attorneys found guilty of crimes against the people.
5. Immediate release of all African people in prison due to the corruption of Philadelphia's criminal justice system.

What: March for Black Justice
When: Wed, Oct 13 - 8AM
March begins at 8th & Market
March ends with a Rally
in front of Criminal Justice Center
(13th & Filbert)
