

# Children are dying in Gaza

---

Israel is committing war crimes against the people of Gaza, bombing, killing and maiming many civilians. Nearly a third of the recent victims of these attacks have been children.

**Did you know that  
Barclays Bank is  
profiting from Israel's  
war crimes?**

**BARCLAYS  
GLOBAL INVESTORS  
IN DEATH**

Killing is big business. Barclays is the largest global investor in the arms trade, with billions of pounds invested. Many of these arms companies supply Israel with weapons.

Barclays has shares in Israeli company Elbit, manufacturer of drones and other military hardware & technology.

Barclays invests in Israeli companies, including those operating in illegally occupied settlements.

Three year old Mohammed Mnassrah, his parents and one year old brother, were all killed by an Israeli air strike on their family home in Gaza, July 2014.

- Barclays is the largest investors in the global Arms Trade - making a killing from killing.
  - Weapons companies around the world along with Barclays Bank profit from arms sales to Israel.
  - Barclays is the only high street bank with significant direct investments in Israeli companies.
  - Israel's occupation of Palestine is illegal. Palestinian land and other resources such as water are commandeered for illegal Israeli settlements.
  - Israel is in breach of scores of UN Security Council resolutions and is widely condemned for its murderous attacks on civilians in Palestine.
  - Israel has a documented policy of keeping the people of Gaza in a state of near starvation through its blockade. Collective punishment is illegal.
  - Extensive research by the Glasgow University Media Group proves that UK mainstream media reporting of the conflict is heavily biased in favour of Israel.
